

In the 10x20 space, more back panels of varying widths are added to create a varied pattern of vertical lights shining from behind.

A bar height table is added with similar design details to the reception and storage units.

The designs and specifications seen here are the sole property of Zig Zibit and are not to be used, copied or shown to others with out written permission from Zig Zibit. A contract to purchase and or build the designs shown here may be negotiated. Thank You.
