

EMERGENCY BALLAST CHOICES COMPACT FLUORESCENT

When specifying emergency ballast systems in Spectrum fixtures, it's important to select the system that meets the local code and the lighting design parameters.

Three emergency ballasts, two test switch positions...choose the best combination for the job.

EMERGENCY OPTIONS:

UP TO 42 WATTS

EM84- 1050 lumens. Remote test switch position (standard)

EM84IT- Test switch
EM84 integral

EM94- 750 lumens. Remote test switch position (standard)

EM94IT- Test switch
EM94 integral

57W-70W LAMPS ONLY

EM75- 1300 lumens. Remote test switch position (standard)

EM75IT- Test switch
EM75 integral

ORDERING THE EMERGENCY BALLAST YOU NEED:

SERIES	LAMP TYPE	WATTS	BALLAST	EMERGENCY	OPTIONS	REFLECTOR
Select fixture series	Choose: 4-pin or Twist-lok(TST) Compact Fluorescent Lamp	18 26 32 42 57 70	E1- 120 E2- 277 Voltage must be specified	UP TO 42 WATTS ONLY EM84- 1050 lumens. Remote switch EM84IT- Test switch integral EM94- 750 lumens. Remote switch EM94IT- Test switch EM94 integral 57W-70W LAMPS ONLY EM75- 1300 lumens. Remote switch EM75IT- Test switch EM75 integral	Choose options from catalog page	Choose the reflector and finish
