

Spectrum Lighting

AMERICAN CRAFTSMANSHIP

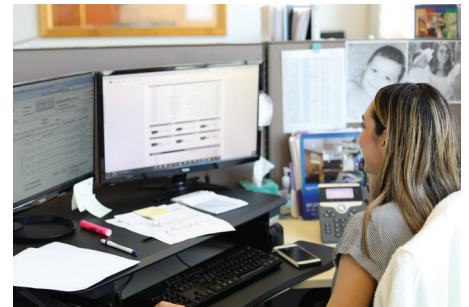

We are proud to design and manufacture all of our fixtures in our 250,000 square foot factory located in Fall River, Massachusetts. This allows us to control the speed, cost, production volume and quality, right here in the United States.

DESIGN EXCELLENCE

With 30+ years of in-house design, tooling, and manufacturing, Spectrum creates best-in-class, long-lasting lighting tools. We use top-quality LEDs, electronics, optics, and materials for superior performance. Our fixtures outlast their warranty with easy electronic updates, ensuring they remain in service for the life of a building—unlike disposable imports.

CUSTOMER EXPERIENCE & FOCUS

At Spectrum, we consider our employees to be our greatest resource. Our team works together to grow the company and help our customers. We are here to serve you with technical help, customer service and warranty support.

At Spectrum, we have always charted our own course, with deep lighting knowledge to share and an appetite for discovering new possibilities.

SR3 3" ADJUSTABLE

- Our SR3 3" Architectural Downlight series expands again! Following up on our patented award winning SR3 wall wash is our new Adjustable accent featuring hot aiming 355 degree mechanical rotation and 35 degree tilt adjustment and locking.
- With full range of installation types, optics, lumens, controls and other options, the SR3 is the most versatile and complete 3" downlight series available.

2" ARCHITECTURAL MODULAR DOWNLIGHT SYSTEM

- Patented installation system allows for round or square trims to fit round standard base recessed housing as well as for easy change of light module for field changes and maintenance.
- Standard base fixture will accept both round and square trim or trim less (plaster) fitters.
- Standard base fixture can be field converted easily from downlight to wall wash or adjustable.
- Optics are also easily field changeable.
- Fixture is available in new and remodel non-IC install at launch with IC AT options to follow later in year.
- Adjustable accent features hot aiming with 355 degrees mechanical rotation and 25 degree tilt adjustment and lock.

NEW ELLIPSOIDAL & CLASSIC GLOBES WITH RGBW

- New Matte Finish White Opaque Globes are now available across all standard sizes: 12", 16", 20", 24", and 36".
- New Ellipsoidal Globes are a distinctive new shape designed for a unique visual impact and optimal performance in areas with lower ceiling heights. Available in sizes: 16", 22", and 26".
- RGBW & Tunable White Technology is now available for both Classic and Ellipsoidal Globes.

THE CR2 IS GROWING, FIVE NEW LENGTHS AVAILABLE

- Along with the original 8" length, CR2 is now available in 5 new sizes: 12", 18", 24", 36", and 48".
- Extremely small diameter, allowing for usage over a wide variety of applications.
- 4 Field interchangeable Optical Systems from Extra Narrow Spot [12°] to Extra Wide Flood [60°] + Wall Wash Optic.
- Multiple mounting options: Surface, Pendant [rigid or 40° Hang straight], Cord or Cord & Cable, and Wall Mounted version.
